INSTALLATION MANUAL Pump: SR2

1. No additional controller is required for API solar water pumps, however the ALC 1275 water level controller greatly increases the life expectancy of our solar pumps and prevents unnecessary wear and tear on the pump. 2. All of API pumps have a pressure limit, to help prevent damage in case of excessive flow restriction. The SR2 has a 65 PSI ...

This manual covers the standard product plus common options that are available.

Centrifugal Pump System Installation | Intro to Pumps

Centrifugal Pump System Installation The most important factor in ensuring a pump system offers a long service life is to get the installation right. No amount of good engineering, proper pump selection, or correct application of pumping technology can overcome the challenges a poor installation can throw at a pump system.
